

8-core fiber optic splice box warranty

Overview

All Fiber Distribution & Termination Boxes/ have 2 years (fiber optic component 1 year) warranty. This termination box is equipped with 8 ports that support FC connectors, making it ideal for high-performance. The 8 ports metal fiber terminal box is similar to the fiber optic patch panel in appearance and function, which designed to connect optical fiber cable and pigtail within building entrance locations and other indoor wall mounted environments. We provide 3~10year or lifetime warranty for different products. We also support third-part inspection. Our products have a high level of customization, such as color, the number of fiber cores. Ideal for FTTx projects requiring centralized fiber management, including splicing, patching, and integration of cassette splitters. Suitable for both indoor (telecom rooms, basements) and outdoor (exterior walls, utility poles) installations, protected against dust and water per IP55 standards. With the capacity to accommodate up to 8 subscribers, it serves as the termination point for the feeder cable. You can connect it with the drop cable. Experience the convenience of.
