

## Cable trays are not visible

### Overview

Change the Cable Tray Fittings type to Electrical Equipment temporary. Was this answer helpful?

If so, please click the ACCEPT AS SOLUTION or the KUDO button. 07-01-2018. To Resolve cable tray not visible in dgn and nor can be found via selection tools in BRCM, this document explains way to find those hidden elements and delete it. User has modified their cable trays from 100mm height to 125mm, but when they generate report, they are still able to see some cable. I'm working with cable trays on Revit MEP 2017 and i have to draw a cable tray running at high level above the selected view range. To install updates, open the Autodesk desktop app and click My Updates. They don't show above the slab in RCP view. I can. They don't touch the boundary, they don't cross it, its just a standard length of Ductwork and 3 cable trays.
