

Can I place my feet on the cable tray

Overview

WARNING!—Do not use a cable tray as a walkway, ladder, or support for people; cable tray is a mechanical support system for cables and raceways. Using cable trays as walkways can cause personal injury and also damage cable tray and installed cables. This guide covers the critical steps, from selecting the right electrical cable tray and performing accurate cable fill calculations to managing a safe cable pull through and ensuring all bonding and grounding requirements are met. For licensed electricians, mastering these principles is essential. It is a critical operational failure mode that can damage expensive connectors, pull devices off surfaces, and create "desk stalls"—a phenomenon where a standing desk appears to have a motor failure when, in reality, it is simply being held back by a taut cable. This article provides a definitive. If according Table 392. A 1/2 feet may be recommended as clearance between trays [in the. For Cable Tray Installers—This publication is intended as a practical guide for the proper installation of cable tray systems. Cable tray systems design shall comply with NEC Article 392, NEMA VE 1, and NEMA FG 1 and follow safe work practices as described in NFPA 70E.
