

Does Sangfor have AI servers

Overview

Sangfor NGAF is the world's first AI-enabled and fully integrated NGFW (Next-Generation Firewall) + WAF (Web Application Firewall) with all-around protection from all threats powered by innovations such as Neural-X and Engine Zero. Hyperconverged infrastructure (HCI), or hyperconverged software, is a unified system of data storage. Here's what it offers: Comprehensive Monitoring: Collects data and monitors statuses from server resources to virtual machines and applications. It is a truly secured, integrated, and simplified firewall. Sangfor Technologies, a leading global provider of cybersecurity and cloud computing solutions, proudly announces the launch of Sangfor Athena, the new brand identity for its cybersecurity business. Join our community of satisfied users today! Athena NGFW redefines.
