According to different types of pigtail cable connector terminated at the end, there are LC fiber pigtail, SC pigtail, ST pigtail, FC pigtail, fiber pigtail and so on. With different structures and appearance, each of them has their own advantages in diffe. According to different types of pigtail cable connector terminated at the end, there are LC fiber pigtail, SC pigtail, ST pigtail, FC pigtail, fiber pigtail and so on. With different structures and appearance, each of them has their own advantages in different applications and systems. Let's go through some widely used ones. SC Pigtail: SC pigtail. Fiber Optic Pigtails, In fiber optic cable installation, how cables are attached to the system is vital to the success of network. If done properly, optical signals would pass through the link with low attenuation and little return loss. pigtail offers an optimal way to joint optical fiber, which is used in 99% of single-mode applications. This pos. pigtails can be divided into single-mode (colored yellow) and multimode (colored orange) fiber. Multimode pigtails use 62.5/125 micron or 50/125 micron bulk multimode fiber cables and terminated them with multimode fiber optic connectors at one end. 10G multimode fiber cables (OM3 or OM4) are also available in optic pigtails. The jacket color of 10.
