

Is there a problem with the lights on the fiber optic router

Overview

Orange, amber, or red lights usually indicate a problem ranging from a firmware update in progress to a lost internet connection. Most of these issues can be resolved with a simple power cycle (unplug for 30 seconds, plug back in). The LEDs on your modem, optical network terminal (ONT), router, or modem/router combo (gateway) are most likely blinking because they're communicating what the device is doing, or there's an error. All networking devices, like modems and routers, provide a row of status lights that represent the. What does that blinking light on your modem or router mean?

This guide covers every LED color and pattern across Xfinity, Spectrum, AT&T, and CenturyLink gateways, with step-by-step fixes for the most common issues. This light shows whether your ONT is getting power. Most of us have experienced the frustration of Wi-Fi cutting out during an important call or while streaming our. Router status lights, often referred to as LED indicators, are small lights on the front panel of your router. These lights help users understand the operational state of the device and its various components.
