

Mexican Fiber Distribution Box 4 Cores

Overview

This box integrates fiber splicing, splitting, distribution, storage, and cable connection into a single unit. FBR-11605 Fiber-Optic Distribution Box, 4-Core is a high quality product by Bud Industries used for electronic enclosure applications. It has been designed to serve as a building entry point for FTTH applications but is also a perfect choice for all types of FTTX applications. The fiber splicing, splitting, distribution can be done in this fiber splitter distribution box, and meanwhile it provides solid protection and management for the FTTX. The Fiber Optic Distribution Box is a multifunctional termination point to connect feeder cables with drop cables in FTTX communication network systems. It is widely adopted in FTTx cabling for both.
