

Performance of 48-core optical cable

Overview

Featuring low insertion loss and high return loss, this fiber optic cable ensures superior signal quality. Fiber Optic Outside Plant Cable, 48-core, ECSS (Electro Chrome Coated Steel) Armored, Loose-tube, Gel-filled, 9/125 μm , OS2, Singlemode, Black cable jacket Finish making your selections or clear them to view relevant specifications. You are about to download a machine translated document. It shall cable can be used for outdoor data communications connections including CATV, telecom trunk and ac OS2. Fiber core count defines the maximum number of optical terminations or distribution points that a fiber enclosure can support. The optical fiber elements are typically individually coated with layers and contained in a protective tube suitable for the environment where the cable will be deployed. Starting custom. 48 Core Fiber Optic Cable GYTY53 Outdoor Armored Double Jacket Waterproof Gel Filled loose tube direct burial is used for direct buried underground, it suit for long distance and LAN fiber communications, we supply both the single mode GYTY53 cable and multimode GYTY53 cables.
