

Requirements for laying optical cables in Benin

Overview

163 describes criteria for the installation of optical fibre cables defined in Recommendation ITU-T L. 110 in remote areas with lack of usual infrastructure for installation including the procedures of cable-route planning, cable selection, cable-installation. The Edo State government has said that it will extend fibre optic cables to the 18 local government of the State as party of effort to expand the state's digital space. (FOA) was founded in 1995 to help develop the workforce to build the fiber optic networks to support a rapid expansion in communications and the Internet. The charter of the FOA was to promote professionalism in fiber optics through education, certification, and. Cable laying standards are essential to ensure the safety, stability, and longevity of cable systems in industrial and infrastructure projects.
