

Standard markings below distribution boxes

Overview

Directly beneath and separate from the CUI designation indicator box, is the distribution statement in its entirety. Additional markings are included as required, e. If annotated, they must be applied to all portions, to include subjects, titles, paragraphs, subparagraphs, bullet points, figures, charts, tables, etc. Good labeling of breakers is very important. This is an internal LLNL standard meant to guide the design of new facilities, facility modifications, and. formation and meet permanency of marking requirements. Compliance with permanency of marking requirements helps ensure that the labels will adhere to the. Material procured, received, stored and issued by DLA requires proper care to ensure that the items arrive and remain in a ready-for-issue condition.
