

The optical signal light on the telecom fiber optic router is red

Overview

If the LOS light on your fiber router or ONT is blinking red, it usually means Loss Of Signal. This guide explains the likely causes, the checks you can do at home, and when the issue needs technician support. What Does the LOS Light Indicate?

The LOS light on your router indicates the status of your internet connection to the Internet. The Optical Network Terminal (ONT) is a crucial device in modern telecommunications, serving as the interface between your home network and the fiber-optic internet connection provided by your Internet Service Provider (ISP). One of the key aspects of the ONT is the array of lights on its front. Understanding LED Indicators on a Fiber Router Let's break down what the common LED lights on a fiber router mean and how they behave: 1. POWER Normal: Solid/stagnant light. A red or blinking light may indicate a power issue, such as a faulty power cord or a problem with the.
