

## What are the procurement models for optical fiber cables

### Overview

Two sourcing models dominate the market: factory-direct manufacturers, which produce and sell from their own IEC-certified facilities, and authorized distributors, which stock certified inventory from multiple brands for faster, smaller-batch fulfillment at higher per-meter costs. The primary suppliers of fiber optic cables are cable wholesaling specialists, computer and technology equipment wholesalers, as well as fiber optic cable manufacturers. This comprehensive guide will walk you through the essential steps to sourcing bulk fiber optic. The fiber optic cables market procurement category is projected to grow at a CAGR of 9. Fiber to the 'X' (FTTX) – A general term encompassing fiber deployment models, including FTTH, FTTB (building), FTTN (neighborhood), and FTTP (premises). Fiber optic cables are high-tech communications cables that carry information like bursts of light along extremely thin glass or plastic strands, providing high-speed, high-bandwidth connectivity with little loss of signal. Fiber optic cables make up the foundation of contemporary.
