

What to do if the fiber optic cable is stuck

Overview

Start with the simplest, fastest checks (visual inspection, cleaning, cable routing) and only move to instrumentation (power meter, VFL, OTDR) when those steps don't clear the fault. This saves time and prevents needless part swaps. When you experience a sudden drop in internet performance or a complete service outage, the fragile nature of the fiber cable entering your home is often the source of the problem. Working with a damaged fiber optic line requires strict safety precautions because of two significant hazards: .
